Sabine Supper
Associate
Schönherr

Join us for the next YAAP Roundtable with Sabine Supper on expedited procedures in international arbitration. Arbitral institutions have been introducing expedited mechanisms designed to reduce the time and cost of proceedings – the ICC's 2026 Rules, for example, introduce a highly expedited procedure providing for a final award within three months of the case management conference. As these mechanisms gain traction, they raise questions about the balance between procedural efficiency and safeguards such as due process, the quality of fact-finding, and the right to be heard. Sabine will map the current landscape and discuss practical implications that parties, counsel and arbitrators should be aware of.
